**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

With plenty of sunshine and moderate UV levels, sun protection is advised. The north-easterly breeze and freezing level at 800m mean it will continue to feel colder than it should, especially on hill tops.

Forecast for Friday 16 Apr 2021

Weather: Fog clearing soon after dawn, elsewhere it will be a sunny but chilly morning. Cloudier in the afternoon but cloud will break up again in the evening to allow for some sunny spells before dusk with another cold and clear night ahead and fog readily reforming in valleys.

Maximum wind: Easterly means 8mph gusts of 12mph.

Chance of cloud free mountain/hill tops above 800m: 100%

Visibility: Visibilities will be excellent on hill tops throughout the whole day but poor in valleys at the start and end of the day.

Temperature: **Valleys:** Plus 2 Celsius becoming plus 9 Celsius.
At 800m: Minus 1 Celsius becoming Plus 4 Celsius.
Freezing level:
